PROJECTS

Tradition Nice one

- Login and registration system for new users and protected route.
- The ability to add items to the cart and send them to the database.
- Created usable components .
- The design is responsive to all screens
- Supports Arabic and English
- Used React, css, Bootstrap, React Router, Redux Toolkit, Swiper, i18n (Support for multiple languages), Formik (Form validation),

Plants

- An e-commerce and blogging site for ornamental plants.
- I created a system for adding products to the cart and deleting them using Redux toolkit.
- Create style and make it responsive using css.

Restaurant Landing Page

- Restaurant landing page using React.
- Create a style using Bootstrap.
- I created an animation using AOS.

Sneaker

- I used react state management to manage the cart .
- Create style and make it responsive using css.
